Kassidy Allred
Customer service
Animal Caregiver

Dear Animal Emergency Hospital and Urgent Care,

As a lifelong animal lover, I am excited to apply for the receptionist position at the animal hospital. My passion for animals has led me to foster cats and dogs through the SPCA, as well as volunteer at animal shelters in my spare time.

I have a strong background in customer service, having worked at R.E.I, The Melting Pot, Pool Professionals, and Doordash. At each job, I have consistently received positive feedback regarding my attitude and ability to prioritize tasks efficiently and effectively while providing top-notch service to customers.

These skills would transfer seamlessly to the animal hospital receptionist position where I know I could provide exceptional care to both clients and their furry friends. Thank you for considering my application - I look forward to discussing my qualifications further in an interview setting.

Best Regards,

Kassidy Allred
